Malawi scoops two medals in Botswana

Malawi started the 2020 Zone IV Swimming Championships in Gaborone, Botswana, on a flying note with gold and bronze medals.

Filipe Gomes won gold in the 50 metres breaststroke 17-24 category while coach/player Sharon Mbebe also shone like a beacon when she lifted bronze in

the Masters section.

Gomes finished in 30.25 seconds to outclass Seychelles' Mathieu Bachmann who settled for silver after docking 30.42.

Ralph Gwetsa of Zambia finished third in 30.64.

But Gomes' top finish was not good enough to place Team

Malawi among the best on the medals table where it finished eighth out of 13 countries at the end of day one.

Malawi Team Manager Beatrice Makwenda, expressed satisfaction with the team's performance, saying they had improved on their finishing times.

"We are doing very well. There have been great time improvements for our athletes including the young ones. Some of our swimmers have even improved by as many as 10 seconds. This is quite encouraging. We expect more medals," Makwenda said.

As of day one, Zimbabwe led the medals table with five gold while Namibia finished second after amassing four gold. Mozambique were third with three gold.

19-year-old earmarked for Spanish football academy

BY PETER FOTE & RONALD MPASO

A WINDOW of opportunity has opened for 19-year-old Malawian striker Yamikani Chaima to join one of Spain's football academies, Alicante.

Yamikani applied to join the academy while at International School of South Africa in Mafikeng.

The forward is expected to team up with another bright talent, Zizwa Hanjahanja, who joined the academy last year.

The football institution has since registered Yamikani on a document dated February 11 2020.

The academy booked accommodation for Chaima, indicating his date of arrival as March 1 2020.

Alicante Football Academy Director, Lauri Nakstroem, said Yamikani had been registered as their player.

"We hope that he will join us soon. We expect to process his visa as soon as the coronavirus travel ban is lifted. We have all his passport details and we are just waiting to complete all the processes," Nakstroem said.

He said if Yamikani excels, there is a chance that he could join Spain's Third Division.

"We will be with him for four months. His future will depend on what he does on the pitch and how many offers come from clubs. If he is good enough to play in Spain's Third Division, the club will offer him a salary and accommodation.

"If his level is not good enough, he can sign for a lower division team but without a salary. We also offer our players a study program. Besides playing, they also study coaching.

"The players train together from Monday to Friday in the morning. Depending on their respective performances, they are

Karonga United pursue Warriors' Mtafu

FOOTBALL

BY BERNARD MHONE

THE country's transfer window may have closed on April 30 but this has not stopped Karonga United from making efforts to acquire the services of Mzuzu Warriors' Ramadhan Mtafu.

Mtafu's contract with Warriors is scheduled to expire in December this year.

Karonga United General Secretary, Ramsy Simwaka, said Mtafu trained with them until the suspension of sports activities due to the Covid-19 pandemic.

Simwaka said they were impressed with his performance and have since engaged Warriors for a possible move.

"We have just been participating in the league for too long. It is now time to compete for the Super League title. We also need to win cups that are on offer. We appreciate that the player has a running contract with Warriors but he is in our plans for this season. We are optimistic that the deal will be sealed soon. Our discussions are at an advanced stage and
